# Time to outsmart climate change.

We can do this with a carbon fee and dividend.

We support carbon fee and dividend legislation in the U.S. Congress because we need a big climate change solution that will reduce carbon pollution quickly and on a large scale. It is:

- 1

Effective
- 2

Good for people
- 3

Good for the Economy
- 4

Bipartisan

## Heal Our Democracy

We use respect and appreciation to help Congress find common ground – something our democracy would benefit from these days.
